

Final Project Proposal

Important Information

- 1-3 people/1 Team
- Abstract due: 23:59, May 20, 2022 (on e3)
- Presentation video: 2022/6/23 (12 minutes in English)
- Report due: 2022/6/26 23:59 (on E3, English/Chinese)

-
- Candidates (DATA does matter!)
 - Paper Implementation
 - WISE-PaaS Competition
 - Your own proposal about ML/DM.
 - Grade:
 - Report (**30%**), Presentation score (**30%**), Originality (**20%**), Performance (**20%**)

Term Project – guideline for topic selection

- Analyzing one (or multiple) real dataset to gain new and important insights
- Enabling new and important applications
- Discovering and solving new machine learning/data mining problem
- Crawling large real datasets that nobody has obtained before

Final Project with WISE-PaaS

- The topics should be
 - Smart City
 - Traffic Management
 - Smart Parking
 - Smart Waste Management
 -
 - Smart Manufacturing
 - Anomaly Detection
 - Defect Classification
 - Root Cause Analysis
 -

Term Project Proposal

- A document (at most **2-page**) describing your:
 - idea
 - application
 - uniqueness or the comparisons with state-of-the-art
 - dataset
 - members
- Show that your ideas are **novel and interesting**, and **worth efforts**
